

Background

St James CE Primary School assume that by sending your child to our school, you agree to the Acceptable Use Policy. If you have any queries or concerns, please contact the school office on 0121 552 5491 or contact.us@stjamespri.uk.

We ask all children, young people and adults involved in the life of St James CE Primary School to agree to an Acceptable Use Policy (AUP) to outline how we expect them to behave when they are online, and/or using school networks, connections, internet connectivity and devices, cloud platforms and social media (both when on school site and outside of school).

Your child has signed an AUP in school. This can be found on our school website.

We tell your children that **they should not behave any differently when they are out of school or using their own device or home network**. What we tell pupils about behaviour and respect applies to all members of the school community, whether they are at home or school:

“Treat yourself and others with respect at all times; treat people in the same way when you are online or on a device as you would face to face.”

Where can I find out more?

You can read St James CE Primary School’s full Online Safety Policy on our online policy library under the ‘About our School’ tab of our school website for more detail on our approach to online safety and links to other relevant policies (e.g. Safeguarding Policy, Behaviour Policy, etc).

What am I agreeing to?

1. I understand that St James CE Primary School uses technology as part of the daily life of the school when it is appropriate to support teaching & learning and the smooth running of the school, and to help prepare the children and young people in our care for their future lives.
2. I understand that the school takes every reasonable precaution to keep pupils safe and to prevent pupils from accessing inappropriate materials, including behaviour policies and agreements, physical and technical monitoring, education and support and web filtering. However, the school cannot be held responsible for the nature and content of materials accessed through the internet and mobile technologies, which can sometimes be upsetting.
3. I understand that internet and device use in school, and use of school-owned devices, networks and cloud platforms out of school may be subject to filtering and monitoring. These should be used in the same manner as when in school.
4. I will promote positive online safety and model safe, responsible and positive behaviours in my own use of technology, including on social media: not sharing other’s images or details without permission and refraining from posting negative, threatening or violent comments about others, including the school staff, volunteers, governors, contractors, pupils or other parents/carers.

5. The impact of social media use is often felt strongly in schools, which is why we expect certain behaviours from pupils when using social media. I will support the school's social media policy and not encourage my child to join any platform where they are below the minimum age.
6. I will follow the school's protocol on digital images and videoing. I will not share images of other people's children on social media and understand that there may be cultural or legal reasons why this would be inappropriate or even dangerous. The school sometimes uses images/video of my child for internal purposes such as recording attainment, but it will only do so publicly if I have given my consent on the relevant form.
7. I understand that for my child to grow up safe online, s/he will need positive input from school and home, so I will talk to my child about online safety and refer to parentsafe.lgfl.net for advice and support on safe settings, parental controls, apps and games, talking to them about life online, screentime and relevant topics from bullying to accessing pornography, extremism and gangs, sharing inappropriate content etc...
8. I understand that whilst home networks are much less secure than school ones, I can apply child safety settings to my home internet. Internet Matters provides guides to help parents do this easily for all the main internet service providers in the UK. There are also child-safe search engines e.g. [swiggle.org.uk](https://www.swiggle.org.uk) and YouTube Kids is an alternative to YouTube with age appropriate content.
9. I understand and support the commitments made by my child in the Acceptable Use Policy (AUP) which s/he has signed, and which can be seen on the school website in the policy section, and I understand that s/he will be subject to sanctions if s/he does not follow these rules.
10. I can find out more about online safety at St James CE Primary School by reading the full Online Safety Policy and can talk to the class teacher if I have any concerns about my child/ren's use of technology, or about that of others in the community, or if I have questions about online safety or technology use in school.
